

Certification team visits College

Six programs in the School of Education and Human Services were reviewed last week for state approval by the District of Columbia Public School System's Board of Examiners using standards established by the National Association of State Directors of Teacher Education Certification (NASDTEC).

The team was on campus Oct. 11-13 to review the School Counseling master of arts degree, the Education of the Hearing Impaired master's degree and the Multi-Handicapped Hearing Impaired master's degree.

At the same time, three programs approved in 1981 with conditions were reevaluated. Those programs are the Early Childhood Education bachelor's degree, the Science Education bachelor's degree and the School Psychology Certificate of Graduate Study.

According to Boris Bogatz, assistant dean of Technical Assistance Services in the School of Education and Human Services, the College should know by January if the programs win state approval.

State approval, he noted, is significant in that many states will only issue teaching certificates to professionals who graduate from state approved programs. Washington, D.C. is party to a reciprocal agreement with 27 other states under which the member states certify graduates of programs approved by other member states.

The School of Education and Human Services will also be visited this coming spring by the National Council for Accreditation of Teacher Education (NCATE), which will evaluate 13 degree programs for national professional accreditation.

Should those programs be accredited and the programs evaluated last week be approved, virtually every education program at Gallaudet would be both state approved and nationally, accredited, Bogatz said. Only very new programs such as the Educational Specialist Program in Supervision would not yet be approved or accredited.

The U.S. government and the Council on Post-Secondary Accreditation recognize NCATE as the only accrediting agency for the education profession. Many states will not certify professionals unless they are graduates of NCATE-accredited programs.

NCATE will reevaluate the master's program in Education for the Hearing Impaired which was last reviewed and accredited in 1974.

In addition, NCATE will review 12 programs for the first time. Those programs include the B.A. in Early Childhood Education, the B.A. in Elementary Education, the B.A. in Secondary Home Economics Education, the B.A. in Secondary English Education, the B.A. in Secondary Math Education, the B.A. in Secondary Physical Education, the B.A. in Secondary Science Education and the B.A. in Secondary Social Studies Education. Also, the M.S. in Educational Technology, the M.A. in School Counseling, and Ph.D. in Administration and the School Psychology Certificate of Advanced Study will be evaluated for the first time.

The NASDTEC team on campus last week was chaired by Clemmont E. Vontress of George Washington University. Ann Wilson of Deaf Pride, Inc. served on the committee along with area education professionals.

College Council convenes members

At the first meeting of the College Council this academic year, W. Lloyd Johns told Council members he plans to continue the group but said if changes are needed they should be made.

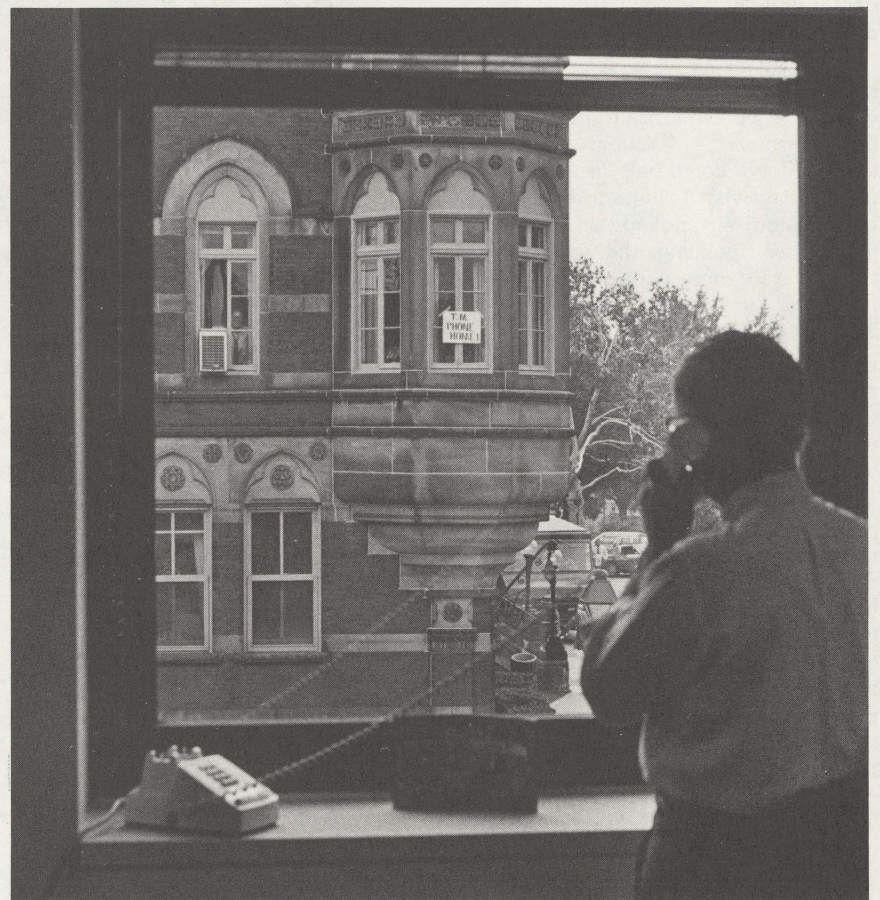

Johns was formally introduced at the Council meeting on Sept. 28 by Edward C. Merrill. Merrill, who as president of the College acted as chair of the Council, expressed his appreciation to members for the opportunity to work together over the past year. Johns, who became Gallaudet's fifth president Oct. 1, assumes Merrill's place on the Council.

According to Council by-laws, the group is required to look at its role at the College and assess the work it did in the past three years, explained Jim Barnes, associate director of Administrative Services who serves as

vice-chair of the Council. "It seems natural that we begin our self-study phase now," said Barnes. "Dr. Johns has asked us for an assessment of the Council's work and to analyze the degree to which it is effective and where it is not, and suggest changes where we feel they are needed."

The Council was established in 1976 to provide advice to the President regarding issues affecting faculty and staff and the College as a whole. Up until that time, Barnes pointed out, there had not been a combined forum for faculty and staff to exchange ideas about campus-related issues. There are nine faculty and eight staff representatives on the Council. Each is elected for a two-year term. They cannot hold more than two consecutive terms. The next elections are scheduled for 1985.

continued on page 3

Reach out and touch someone, Tom Mayes. That's the message staffers left for the vice president for Public Services as they taped a "T.M., phone home!" sign to a window in College Hall. Standing in his new office in the EMG building, Mayes, shown here, eyes the sign and presumably — like E.T. — makes a call home.

Medical crews meet on deaf patients

Jan Gemmill recounted the simulation exercise in which she took part. Playing the role of the victim, she was to have passed out at a friend's home.

Volunteer participants in last weekend's workshop for emergency medical personnel on the treatment of deaf and hearing impaired trauma victims, Gemmill and Agnes Sutcliffe, both deaf women from Gallaudet, waited for the medical team to arrive and their seven-minute exercise to begin.

As the emergency team arrived, the exercise was under way. Gemmill, an English instructor at the Northwest Campus, lay still as Sutcliffe, an instructor in the Sign Communication Department, tried to communicate to two nurses unfamiliar with sign language what had happened. The "communication" proved to be exercise in frustration, and the seven-minute limit lapsed without any treatment administered.

"I could have died if the injury (I was pretending to have) was real," Gemmill stated.

While other drills during the day-long workshop Oct. 8 were more successful in terms of communication, that simulation points to the need for the

workshop, said Maureen Durkin, a training specialist with the National Academy. "It was a sobering experience in that it gave you an idea of where breakdowns in communication could occur and what could possibly happen as a result," she stated.

Co-sponsored by Gallaudet and 11 local organizations concerned with health care for deaf people, the workshop was coordinated by the National Academy and held at the Greater Laurel-Beltsville Hospital in Laurel, MD, to help emergency medical personnel more easily treat deaf and hearing impaired trauma victims. "The focus of an Emergency Medical Technician is to stabilize and transport a victim," Durkin said. "That requires speed and accuracy, but with a deaf victim, that's complicated by two major problems: identifying that the victim is deaf and establishing communication."

Thirty-one EMTs, who work in hospital settings as well as on ambulance calls, and six nurses participated in the workshop, with 26 volunteers on hand to help out during the day.

Lectures and demonstrations were
continued on page 2

Medical seminar

continued from page 1

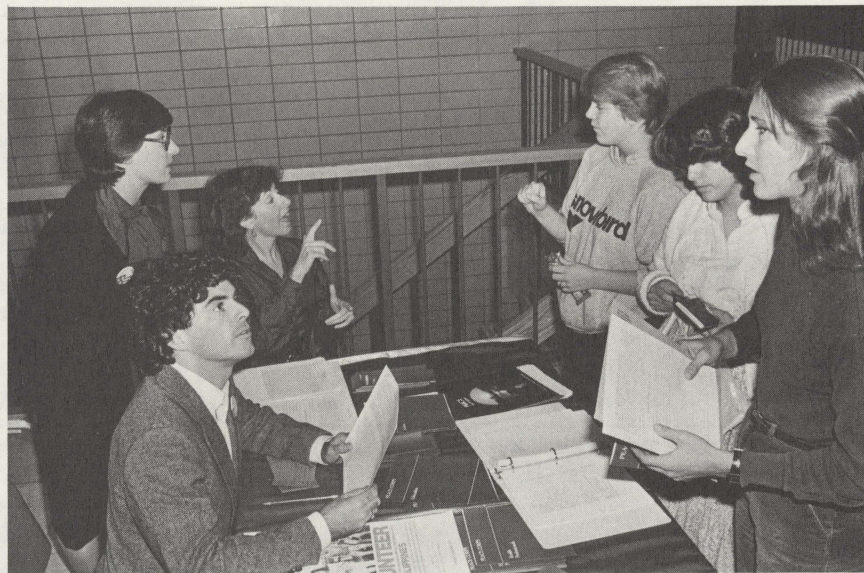

held during the morning to meet the workshop's objectives, which included identifying clues to a victim's deafness, identifying barriers to the provision of emergency medical services to deaf and hearing impaired victims, indicating ways of eliminating or reducing such barriers, listing communication methods with deaf and hearing impaired persons and demonstrating a variety of communication approaches to resolve specific problems presented in casualty simulation exercises.

The simulations followed the demonstrations and lectures, culminating the day's activities.

Both Gimmell and Evelyn Mitton, a secretary in Personnel who volunteered during the workshop, said they found the workshops helpful themselves. "I learned how I could help facilitate communication, what I could do to help out," Mitton said, noting that by using gestures and pointing, she was able to communicate more effectively with the EMT who knew no sign language.

Feedback from the medical personnel participating in the workshop was positive, Durkin said. Many requested a longer program as well as additional workshops to be offered throughout the year.

The workshop was the third prepared by the National Academy in three years. This program is part of an ongoing medical personnel education program begun by several Gallaudet professionals following the implementation of Section 504 of the Rehabilitation Act of 1973. The section requires that federally supported programs and services be accessible to handicapped persons. Gallaudet's National Academy offered similar workshops during the last two years to medical professionals in Burke, VA, and College Park, MD.

Recruiters from the Peace Corps were on campus for several days last week talking to students at the Ely Center about their program.

Workplace technology expo held

Thomas Doyle, chairperson of the Handicapped Employees Committee of the Department of Health and Human Services, gave the welcoming address at the opening ceremony of the department's Technology in the Workplace exposition in recognition of the National Employ the Handicapped Week. Doyle, a deaf chemist trained at MIT and GWU, has been working with Gallaudet's Experiential Programs Off Campus in placing science students in internships with the department. In the morning ceremony he reminded the audience that "the technology will speak for itself. Yet, in the final analysis it takes the people" to bring the ideas, devices and handicapped people together in the workplace, he said.

Margaret M. Heckler, secretary of Health and Human Services, invited the audience to "heckle Heckler if we

are not doing enough" with regard to services and programs for handicapped people. "For too long we did ignore our handicapped sisters and brothers . . . I am proud of my Congressional life when I had a part in making the statutes" which are now the cornerstone of handicapped civil rights. "But it is only a beginning."

Also featured in the morning program were Thomas S. McFee, assistant secretary for Personnel Administration; Jay Rochlin, Human Resources manager for American Telephone and Telegraph Co.; and John Kemp, director of Human Resources for the National Easter Seal Society.

The opening ceremonies introduced a two-day expo of technology currently used in the workplace. Visitors had an opportunity to use the Phonic Ear system, take a ride down the stair on the Evac Chair designed for people who are unable to exit in an emergency by walking down the stairs, and discuss the Homework vocational training program designed by Control Data Corporation.

"Since World War II, the United States has set aside one week each year to emphasize ways in which more people with disabilities can be assisted in their efforts to become independent through gainful employment," stated the proclamation signed by President Reagan. The Congress passed a joint resolution in 1945 designating the first full week in October as National Employ the Handicapped Week. Activities this year were Oct. 2-8.

Speech development presentation scheduled

Gallaudet College's School of Communication is sponsoring a presentation on Speech and Language Development in Hearing Impaired Persons to be given Oct. 26 at Hall Memorial Building.

Harry Levitt, a professor at the Graduate Center of City University of New York, will make the presentation from 3 to 4:30 p.m. in Room 352 of HMB.

Levitt is a leading authority in the field of Communication and Deafness and has published extensively in this area. His affiliations with Gallaudet College include serving as an advisor to the Rehabilitation Engineering Center for the Deaf and editor of the encyclopedia of Deaf People and Deafness.

N.W. Campus Shuttle effective Oct. 10, 1983

Stop Departure
Monday through Friday

Main Campus	7:15 a.m.
Silver Spring Metro	7:50 a.m.
NW Campus	8 a.m.
Main Campus (arrive)	8:35 a.m.

Main Campus	12:25 p.m.
NW Campus	1 p.m.
Main Campus (arrive)	1:35 p.m.

Main Campus	2:45 p.m.
NW Campus	3:20 p.m.

Main Campus	4 p.m.
NW Campus	4:35 p.m.
Silver Spring Metro	4:45 p.m.
NW Campus	5:05 p.m.
Main Campus (arrive)	5:40 p.m.

Main Campus	6:30 p.m.
NW Campus	7 p.m.
Main Campus (arrive)	7:30 p.m.

Main Campus	9 p.m.
NW Campus	9:30 p.m.
Main Campus (arrive)	10 p.m.

Saturday and Sunday

Main Campus	8:30 a.m.
NW Campus	9 a.m.
Main Campus (arrive)	9:30 a.m.

Main Campus	10:30 p.m.
NW Campus	11 p.m.
Main Campus (arrive)	11:30 p.m.

- The Main Campus stops are at the College Hall entrance and the HMB parking lot near the walkway overpath. After 5:40 p.m. and on weekends, the bus will only stop at HMB.

- The Silver Spring Metro stop is at the Kiss and Ride parking lot.

- The NW Campus stop is at the main building.

- The NW Campus shuttle was adjusted to meet more transportation needs, according to a spokesman in the Transportation Department. The schedule should not be changed again until 1984.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on programs of interest can be obtained from the Office of Sponsored Research, x5030 (voice or TDD).

Deadline	Program
10/28/83	ED: Fulbright-Hays Training Grants Program
11/01/83	ED: FIPSE Mina Shaughnessy Scholars Program
11/01/83	ADAMHA: Prevention of ADM Problems in Children and Adolescents
11/28/83	ED: SEP Handicapped Education Training Grants
12/02/83	ED: Minority Institutions Science Improvement Program
02/03/84	National Institute of Education: Unsolicited Proposals
No Specific Deadline	NSF: Honors Workshops and Materials Development for Pre-College Science and Mathematics
No Specific Deadline	NSF: Information Science and Technology Research Programs
No Specific Deadline	NSF: Presidential Awards for Excellence in Science and Mathematics Teaching

Weekly program highlight

The U.S. Department of Education is accepting applications for grants to training programs for teachers and support personnel in handicapped education. Applications are due November 28, 1983.

Grants will be awarded for projects to train special educators, leadership personnel, related services personnel and trainers of volunteers, state agency programming, special projects and specialized training for regular educators.

The department is encouraging projects to prepare personnel to assist handicapped students in the transition from school to employment, to prepare personnel to provide services to newborn and infant handicapped children and to train personnel to educate minority or underserved populations.

It is estimated that FY 1984 appropriations for this program will be about \$49 million. State education agencies, higher education agencies and non-profit organizations are eligible to apply.

For further information, please contact the Office of Sponsored Research or Dr. Herman Saettler, Division of Personnel Preparation, Special Education Programs, U.S. Department of Education, 400 Maryland Ave. SW, Donohue Building, Room 4805, Washington, DC 20202, 245-9886.

Gallaudet College is an equal opportunity employer-education institution. Programs and services offered by Gallaudet College received substantial financial support from the Department of Education.

Advocacy Notes

Minnesota's new "504" law

by Merv Garretson

Employers and others in the state of Minnesota are making changes in order to comply with the new, tough anti-discrimination law passed by the legislature this summer. While Section 504 of the Rehabilitation Act of 1973 applies only to recipients of federal funds, the Minnesota law requires that

- any employer in the state with 50 or more permanent, full-time employees make reasonable accommodation for a qualified handicapped person
- state government agencies providing services to the public must make sure their programs and sources are accessible, both architecturally and program-wise
- disabled persons must have transportation services comparable to those of able-bodied people, including service to similar geographic areas with comparable hours, fares, trip restrictions and response time

Reasonable accommodation includes physical accessibility, readers for the blind, interpreters for the deaf, flexible work schedules, job restructuring or provision/modification of necessary equipment for job performance. An employer may be excused from reasonable accommodation if it places an "undue hardship" upon the business or agency.

According to Patti Hague, legislative specialist with the Minnesota State Council for the Handicapped, the new law goes farther than laws in other states to protect the civil rights of disabled persons. She calls it the "most comprehensive anti-discrimination protection on the basis of disability in the most areas." It sets up a process for equal treatment of the handicapped in the area of jobs, public services and transportation.

Hague said making reasonable accommodation for disabled employees does not have to be costly. A Labor Department survey released last September found that most modifications to the work place cost nothing.

Schools program set

The annual Graduate and Professional School Day program, co-sponsored by Gallaudet, will be held Oct. 25 and 26 at George Washington University. Over 150 representatives from across the nation will be on hand to discuss their schools' programs during the two-day offering, co-sponsored by nine Washington, D.C. area colleges and universities.

Interpreting and transportation services will be scheduled, and juniors and seniors considering advanced education are encouraged to attend.

Law schools will be the focus of discussion on Tuesday, Oct. 25. On Wednesday, Oct. 26, more than 150 representatives from graduate and professional schools will be present, with panel discussions scheduled.

The deadline for registering at the Counseling and Placement Center is Oct. 21. For more information, contact the Counseling and Placement Center at x5638 (voice or TDD).

About 30 percent of the changes cost between a dollar and \$500.

Copies of the law, Chapter 276, which amend the Minnesota State Human Rights Act, are available from the Minnesota State Department of Human Rights, 5th Floor, Bremer Tower, 7th and Minnesota, St. Paul, Minnesota 55101.

Briefs

- A year-long internship is being offered by the New York Metropolitan Museum of Art to disabled persons interested in museum work. The internship would be from June 1984 through May 1985 with preference given to applicants who are hearing-impaired, visually impaired, or mobility impaired. Interns will receive a monthly honorarium of \$708 in addition to a travel allowance for out-of-town consultation with other museums. Selection will be based on the applicant's ability to show a serious commitment to a museum career, either through previous employment or affiliation with an art museum, advanced degrees in art history, or other relevant experience. Applicants should send a typed letter by December 1 to: Disabled Visitor Services, the Metropolitan Museum of Art, Fifth Avenue and 82nd Street, New York, New York 10028.

- Special Education Programs (SEP) of the U.S. Office of Education has announced that under P.L. 94-142, a total of 4,041,614 handicapped children are being served during the 1983-1984 school year. The total federal allocation in states grants, \$970 million dollars, breaks down to an average of \$236 per child. Highest number of handicapped children served in a single state is 361,000 for California, with the District of Columbia lowest at 1,956.

- In 1981 psychology professor Lee Meyerson, who is severely hard of hearing and has a hip ailment, sued Arizona State University, charging discrimination because he was not given any of the federal research aid received by his department. In his Sec. 504 suit in the U.S. District Court Meyerson also claimed he was paid a salary not commensurate with his experience or service. The court ruled that he was not protected under Sec. 504 because the federal grants received by the university were not made primarily to provide employment. This past summer the case was carried to the 9th U.S. Circuit Court of Appeals which sustained the earlier decision of the court. Meyerson's attorneys have asked the U.S. Supreme Court to review the case.

Memorial lecture features Crammatte

Alan B. Crammatte will be the featured speaker at this year's Alice M. Teegarden Memorial Lecture sponsored by the Department of Communication Arts. Crammatte, the 1982-83 Doctor Chair of Deaf Studies, will speak on communication and the employment of deaf persons.

The lecture is scheduled for Thursday, Oct. 27 at 7 p.m. in the Ole Jim.

All members of the College community are invited to attend.

The 1983 edition of "Tower Clock" has been selected by Herff Jones Yearbooks, a yearbook publishing company, to serve as one of its national yearbook samples. Chosen on the basis of its design, layout, content and coverage, "Tower Clock" will be displayed at journalism workshops throughout the nation. Pictured above, "Tower Clock" editor Lori Maynard stands with former Gallaudet President Edward C. Merrill, to whom the 1983 yearbook is dedicated.

Council convenes

continued from page 1

Alternate representatives are also elected to fill vacancies. Meetings are held the fourth Wednesday of every month.

The Council has provided advice on issues such as parking, budget, and mail service and has often suggested policy changes as well. At the last meeting, the Council heard a report from the subcommittee studying the College's maternity leave policy. No decision has yet been made on that issue. The Council also elected a new secretary, Barbara Lynch, management budget assistant at MSSD.

Faculty and staff are invited to attend College Council meetings. The next will be held Wednesday, Oct. 26 from 4 to 5 p.m. The Council welcomes suggestions from the campus community for items to be discussed. For further information, contact Barbara Lynch at x5197.

KDES plans play

Seven Middle School students will present "The Halloween Pumpkin" on Oct. 27 and 28 at 1:25 p.m. in the Kendall Demonstration Elementary School Auditorium.

Both shows are open to everyone.

Wealth lecture set

The School of Education and Human Services will host a presentation entitled "Building and Protecting Wealth" Wednesday, Oct. 19.

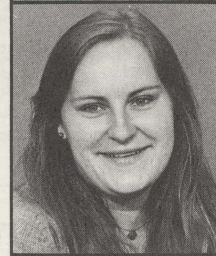

To be held from 2 to 5 p.m. in Room LN 11 of the Learning Center, the presentation will be given by William Randall Cone, a financial management advisor with E.F. Hutton & Co.

Discussion topics will include risk/return comparison of traditional investments, management of market risk, guaranteed investments, deferred annuities, recent tax law changes, 1983 tax shelters, Individual Retirement Accounts and investment companies.

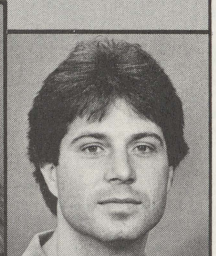

For more information or to register, call x5395 (voice or TDD).

Personalities

Sarah C. Moore is a library technical assistant specializing in media in the Individualized Learning Department of the library. Moore will be responsible for film and video loans and purchases as well as updating the media distribution catalogue. She moved to the area from Chapel Hill, NC, where she received a bachelor of arts degree in history and worked as a library clerk/typist in the campus library.

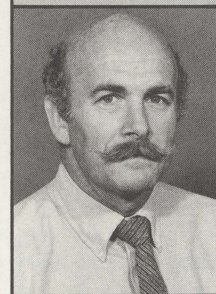

Moore

Windham

Mark Windham is an art teacher at Kendall Demonstration Elementary School, where he will work with primary, intermediate and middle school students and the Special Opportunities Program. He received his bachelor's degree from Gallaudet in 1981 and his master's degree in fine arts from the Maryland Institute College of Arts earlier this year.

Ray S. Parks Jr. is the director of Student Life at MSSD, where his duties include overseeing the dormitory programs and the MSSD Athletic Department. He worked as a physics instructor at Gallaudet from 1963 to 1970, after which he served as director of the Social Education Program and Student Center at Louisiana School for the Deaf. He is now working on his dissertation for a doctorate in educational administration.

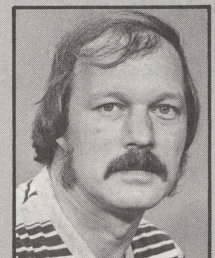

Parks

Virvan

Barbara Virvan is the editor of On the Green. She comes to Gallaudet from the Bowie Blade-News, a weekly newspaper in Bowie, MD. She took the job in Bowie after graduating in 1979 with a degree in Sociology from the University of Maryland.

Benfield

Roger L. Benfield Sr. is an environmental technician with Maintenance and Operations. His duties include the maintenance and installation of all automation system controls and the central utilities plant controls.

Gallaudet soccer player Grant Undersultz boots the ball past an opponent as he makes his way down field during a recent game.

Eagles defeat Colonial Beach

The Eagles played a ground control game and racked up 322 yards rushing in defeating Colonial Beach 32 to 17 last Friday night, Oct. 7. The Eagles now have a 4-1 record.

Sean Markel was the team's workhorse, carrying the ball 34 times for 183 yards. He had a 5.4 yard rushing average. He scored one touchdown and made two point after touchdown conversions for a total of 10 points. Teammate Bob Wilkings rushed for 94 yards on 12 carriers for a 7.8-yard average and made two TDs along with one PAT for 14 points.

MSSD will travel to Indiana School for the Deaf for a night game on Fri-

day, Oct. 21.

In other sports action, the girls volleyball team picked up three victories against two setbacks and are sporting a 6-3 record. The girls defeated Sidewall, Ballou and Georgetown Day but lost to LaReine and Seton.

The soccer team evened its record to 3-3 with 1 to 0 wins over Pallotti and Pope Paul and a 3 to 2 overtime victory against Georgetown Day.

The cross country team ran its record to 3-2 last week with a victory over Jewish Day and a forfeiture win over Queen Anne.

Bison routed by Anne Arundel

The College football team was thoroughly trounced by Anne Arundel Community College 45 to 0 Saturday night, Oct. 8 at Anne Arundel. Statistics were not available at press time. The Bison football team has a 1-2 record and the next home game is Homecoming Oct. 22 against Clemson Club football team starting at 1:00 p.m.

In other sports results, the soccer team lost two games last week, to St. Mary's college 1-0 and to Hagerstown College 2-1. The Bison booters are still sporting an impressive 5-3 record and have six games remaining. The soccer team will have two home games this week—Tues. against Bowie State at 4:00 and Saturday (Homecoming Day) against Shelton at 2:00 p.m.

The field hockey team is still looking for its first win of the season after posting a 3-0-1 record as of Oct. 5. The team has been playing good field hockey and should break into the win column soon. The next home game will be on Homecoming Day in a game against Marymount beginning at 1:00 p.m.

After losing the first four matches, the women's volleyball team notched its first victory of the season against Washington College on Oct. 5. The women defeated Washington 15-13 and 18-16. The next, (and last) home game of the season is Tues. Nov. 1, against Western Maryland College at 7:00 p.m.

The 1984 Combined Federal Campaign kicked off its three-week effort on campus this week. The theme this year is "Hand in Hand Helping Others." Contributions to the campaign can be made through the payroll deduction plan.

Letter

We would like to express our appreciation for the strong support Gallaudet employees gave to the Aug. 27 Twentieth Anniversary Celebration (of the March on Washington). Through their donation of money and talents, they made a significant contribution to our organizing effort on a national and local level.

We particularly thank Michael Shirley for his assistance in graphic arts and Eloise Molock for her assistance in coordinating interpreters for the day's program. Also, we thank the many individuals who sold hundreds of dollars worth of T-shirts, buttons and other march fund-raisers.

We believe that the Aug. 27 March for Jobs, Peace and Freedom was a huge success and we want to thank those who helped make it possible.

Donna Brazile
National Mobilization Director
Washington, D.C.

Annual book sale set

The College Library's annual book sale will be held from Monday, Oct. 31 to Wednesday, Nov. 2 in the upper level lounge area of the Learning Center. The hours will be from 9 a.m. to 11 p.m. on Monday, 8 a.m. to midnight on Tuesday and 8 a.m. to 11 p.m. on Wednesday.

The book sale will include hardbacks, paperbacks, records, deaf school yearbooks, magazines and books related to deafness. More than 2,000 books and magazines will be on sale.

Money collected from the book sale will be used to purchase a new electric typewriter for student use in the library.

Hearing tests offered

The Mill Neck Foundation's Telecommunications Van will offer free hearing screenings and equipment demonstrations on Campus Oct. 21. The custom designed van, the only one of its kind in the country, will be parked in the parking lot in front of College Hall from 10 a.m. to 9 p.m.

In addition to conducting professional screenings for hearing loss in children and adults, van personnel will also demonstrate new equipment for deaf and hearing impaired persons.

The Mill Neck Foundation Inc. is located at the Mill Neck Manor Lutheran School for the Deaf in Mill Neck, NY.

Jobs Available

Some of the advertised staff positions may already be filled. For updated information, call the JOB RECORDING in the Personnel Office, x5514 or x5520 TDD.
